## Raketu Launches New Application for Blackberry Users

[VOIP/Internet Phone](#)  
Find out which VOIP/Internet Phone are best with our unbiased reviews.

Ads by Google

Being a start-up in the VoIP market, Raketu has just launched a new application that will help optimized the BlackBerry (R) allowing its users to make free call, send SMS internationally and send email within the Raketu BlackBerry Application. The new innovation is a [web-based Application](#) and the configuration is such that users of the BlackBerry Curve (TM), BlackBerry 8800 Series, and [BlackBerry Pearl](#) (TM) can make use of the services earlier mentioned.

Intending users would not need to download any software before they can utilize this service; this is because it is entirely a web-based application, for BlackBerry users all they need to do is to sign up using the [web browser](#) at [BlackBerry.raketu.com](#)

Raketu is known to be one of the leading global [Internet communications](#), information, and entertainment company and the company has decided to make these services available almost for free, Raketu users who sign up and make a payment of \$9.95, \$24.95 or \$49.95 to their

Raketu account are eligible for up to 600 free calling minutes per month towards BlackBerry initiated phone-to-phone calls.

Speaking on the new development, the president and CEO of Raketu, Greg Parker said that "With over twelve million users of the BlackBerry worldwide, the

introduction of our Raketu BlackBerry Application marks our definitive

entry into the mobile business market. For businesses whose employees initiate a significant number of international calls from their BlackBerry mobile devices, Raketu's BlackBerry Application is a great way to reduce monthly calling costs."
